

Backlit LED switch Label Kit

When the Dual color LED function switches are turned on, the Blue LED lights up through the actuator. Activate a particular function by pressing one of the switches. This will change the Blue LED to Red, indicating that the chosen function is turned on. The switch color can customization.

With a IP67 waterproof rating and Stainless Steel body our switch can be installed on your boat or other vehicle in wet and dusty environments, but not under water. The first switch can be designated as the night time Blue LED On/Off switch.

Identifying the function of each push button switch is simple with our **interchangeable 3M adhesive backed actuator Backlit Labels. It's the only actuator that allows the LEDs in the switch body to pass light through the label.** The result is excellent visibility at night. There are **53 Switch Function Icons to choose from!** **Custom Icon Labels can be made to your design specifications.** Please check with the factory.

Backlit Label in *Daytime Mode*. LED light is off.

Backlit Label in *Nighttime Mode*. The Blue LED provides great visibility of all the function switches and lets you know that the switches are in the off position.

Backlit Label in *Nighttime Mode*. The Red LED lets you know that the switch is on.

*All specifications are subject to change without notice.
